Dear Sir

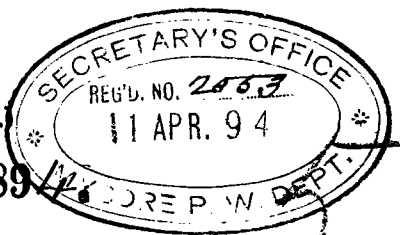

After the verbal conversation I had
the pleasure to have with you regarding
my not going to inspect the bungalows
at Bellur & Srirangapatam placed under
my charge with the establishment mainly
paid they me I have the honor to state
that it is impossible for me to attend to
this work unless the travelling allowances

Executive Engineer's Office,
Special Supt. Division,
Mysore 4th April 1894.

From The Executive Engineer,
Special Supt. Div.

To

The Chief Engineer
of Mysore.

Your No. 1503 of 24th ultimo, forwarding for information your approval of the proposal of the Sanitary Engineer, to place all the new buildings in charge of the Margins Kivani. —

Sir,

With reference to the above, I have the honor to report that of the 13 buildings mentioned in the letter No. $\frac{206}{94}$ of 14th March 1894, by the Sanitary Engineer, only 6 have been completed. The first five being situated in and very close to the Gordon Park are already in charge of

of the Marquis, who works under this Division. —

2. — The conserving, gardening &c in all the buildings are attended to by the occupants, while this is done in Public Officers and Hindu Visitors' Quarters by the establishment sanctioned for the maintenance of Gordon Park. —

3. — With reference to planting, you are aware that with much representation it has been sanctioned for the Quarters of the Educational Secretary and Miss Vokins in Supplemental Estimates. I am sending proposals for planting compounds of other buildings also. It was my intention to place the plantations as they are sanctioned under the Marquis. This shall be done. When the amounts sanctioned are worked out and the plants are grown to a certain

certain size they must be handed over to the tenants. —

4. — "Attending to the buildings" is the main and most important part of the work which belongs to a Department. This is done by this Division for the buildings completed. With reference to Maharajah's Girls' School, I have been asked by the Superintendent of the school, in D.O. letters, to look to certain work done to stables and cook-rooms, and give estimates for sheds &c. I have complied with her requests. But it is necessary to decide if such additions and new works, as construction of stables, cook-rooms, stalls &c., have to be attended to by this Department or by the School Committee. This important portion of the work, i.e., preparation and submission of estimates and carrying out the same the Margins cannot

cannot do. —

5. — The practice of handing over the buildings to the Mysore Division, referred to in para 2 of the Sanitary Engineer's letter, is but a *Say*, and not a single building for 6 years he was in charge of the Division was transferred to that Division. Till this Division exists it can well afford to attend to the repairs of its buildings better and with greater ease, being in possession of all the details of their construction. —

6. — The Daria Dowlet bungalow at Seringapatam and the bungalow at Gzhuwal are both in charge of the Marquis, but he does not inspect them, on the ground that the travelling allowance of 5/15/0 he gets is not sufficient to cover his expenses. This is a fact. But I attended to the needful during my inspections.

inspections. As the Marquis cannot be induced to look to these, except by giving him an increase in allowance, I take this opportunity of recommending an increase in allowance when he travels, as a special case, and his D.O. on the subject I enclose herewith. —

Y. — In conclusion I beg to submit that these minor internal arrangements for maintenance of plantations and for estimating the buildings &c. may kindly be left to me, ie, to one in charge of the Division as usual, who has a full and accurate knowledge of the materials he has, and knows how to use them to the best advantage, unless it is the intention of the Government to give a separate establishment to the Marquis to look

look to "Conserving, Planting out
and attending to the buildings,"
as stated in the concluding portion
of the Sanitary Engineer's letter on the
subject. I am glad here to record
that I found the Marquis always
cheerful in carrying out my instruc-
tions and eager in getting them
whenever wanted. —

8. — I beg to enclose for information
order of the Sanitary Engineer, "to transfer
charge of all the buildings to the
Marquis Viviani by an early date." —

I have the honor to be

This letter was drafted and
nearly fair-copied before the receipt
of your let^r 1707 of 4th instant, intimating
the.

the intention for early amalgamation
of the Special Improvements and
Water-works Divisions. This effects
only para 5 of the letter. It is
however necessary that the buildings
are under the control of a D.P.W.
Division. If the Water-works, ~~which~~
~~I believe is not yet fully developed,~~
is amalgamated with the Special
Improvements Division, it can still
be able to attend with ease to its
new buildings.—

Bungalows

Bungalows is included in the Military Secretary's Budget, and that he pays them along with the establishment of the Upper and Lower Residences at Mysore. From the details in the margin, it is evident that the Margas, under orders of the Military Secretary, has to see that the servants attend to the comfort of the travellers, that the furniture and cooking &c are properly taken care of, a work that is done by the Revenue Department to all other Bungalows in the State. There is no doubt that he has to inspect the Bungalows. But it concerns the Military Secretary. —

There are extensive and beautiful garden plantations attached to David Dowle Bungalow. These are attended to and well kept up by a large establishment under the orders of Mr. Cameron. The plantations in Yerwat

Bungalow, excepting a small plot of garden and a mango ^{tree} ~~tree~~ are taken care of by the Forest Department.
